

Empac Annual General Meeting & Open Space

Copenhagen (Denmark) - June 3rd / 4th 2010

Dear Empac member

On behalf of the Empac Board we would like to invite you to the 4th Empac Annual General Meeting which will be held in the beautiful city of Copenhagen on June 3rd and 4th 2010. We wish to thank the Danish national association, Metalemballagegruppen, for its support in the event organization.

On June 3rd the Empac board will have its traditional pre-AGM meeting. Non-Board members arriving in the morning and early afternoon will have the option of attending an interactive media training session with CitySavvy, the Empac PR consultants; this will take, on average, one hour and we would encourage all members to participate. In the evening members are free to network and enjoy a relaxing dinner in Copenhagen.

On June 4th the formal AGM (which includes a review of activities undertaken in 2009 and planned for 2010) will be held in the morning. After lunch the Open Space session will offer you a comprehensive and engaging programme, cutting right to the heart of our business. The theme is "Sustainability - Threats, Trends and Opportunities" and is intended to give an overview of the relevant political and economic developments which impact upon your business on a daily basis. Empac wants to draw from the day pragmatic solutions all members can adopt in their daily working lives to improve the positioning of our industry.

Of course, the AGM is not only work; an engaging programme has been put together, which will give you food for thought and is aimed at combining discussions around our industry networking and some pleasure including an optional tour of Copenhagen for partners on Friday June 4th 2010. Those intending to stay over the weekend will be provided with suggested itineraries.

Please find attached the registration form and the hotel information.

We trust you will support our industry blend of small, medium and large companies - by attending this unique event.

Yours faithfully

Gordon Shade
